CHEMICAL PEELS

Chemical peels are a proven, safe method of exfoliation, removing cellular build-up on the surface layers of your skin. Peels are useful for acne, prematurely aged skin due to sun exposure, rosacea, hyperpigmentation, acne lesions and dry skin. We offer a range of peels - from light to stronger.

CHEMICAL PEELS PRICING

Sensi Peel Exfoliating Treatment **\$75**

Skin Ceuticals Micropeel 20% or 30% **\$100**

Skin Ceuticals Micropeel Plus 20% or 30% **\$125**

PCA Enhanced Jessner Peel **\$100**

PCA Ultra Peel **\$100**

PEEL SERIES

Peel treatments are available individually or in a series of 6 to ensure the greatest benefits. A peel series package gives you 6 peels for the price of 5!

\$75.00 Peel Package **\$375**

\$100.00 Peel Package **\$500**

\$125.00 Peel Package **\$625**

PEELS AND MORE...

We may recommend pore extractions to clear breakouts and open clogged follicles as a separate treatment offered with or without a peel. A slush is a refreshing, soothing cryotherapy treatment for acne.

ADDITIONAL SERVICES PRICING

Extractions **\$75**

Extractions added to a Peel **\$50**

Neck & Chest added to a Peel **\$50**

Neck & Chest added to a Peel Series **\$250**

Slush **\$50**

COSMETIC SERVICES

Dr. Ken Lee is an expert in cosmetic fillers and laser surgery, offering highly customized facial enhancement with cosmetic injectables and laser surgery. Before performing any cosmetic procedure, he carefully evaluates your skin using four objectives: pigment and vascular change; dynamic wrinkles; texture; and contour/volume loss. Dr. Lee will recommend treatments best suited to your goals and your skin's condition to leave you with a natural look.

We offer an array of cosmetic treatments, including Botox® & Dysport® injectables and a variety of dermal fillers. We have multiple state-of-the-art lasers for intense pulsed light (IPL) photofacials, fractional laser resurfacing, and vascular (redness) treatments.

Dr. Lee performs cosmetic facial injections and most of our laser treatments. Some of the laser treatments are provided by our highly trained medical staff. Pricing for your individual service is quoted at the time of consultation.

SKIN CARE SERVICES

Skin care services start with a complimentary skin care & products evaluation. We're here to consult with you about your skin care, to address your concerns and to suggest products and services best suited to your skin. Our skin care services include a variety of chemical peels, extractions, slushes and Sclerotherapy (offered by a physician).

We offer a wide range of hypoallergenic sunscreens and skin care products carefully selected by our board-certified dermatologists for purity. During your complimentary skin care consultation, we'll recommend products best suited for your skin's condition. See the product insert of this menu for a full listing of products.

Call **503 223-3104** to schedule your consultation with Dr. Lee or start with a complimentary skin care & products evaluation with our skin care medical assistant.

First syringe **\$700**
Second syringe **\$650**

SCLEROTHERAPY

Collapses, fades 'spider veins' on legs (provided by Dr. Ken Lee)

Consultation **\$150** applies to first treatment
Treatment **\$400 - \$600** (depending on size of area)

lasers

Lasers provide advanced technology for 'face lifts without the face lift' by repairing the texture and quality of skin damaged by over exposure to the sun, aging, scarring, and some medical conditions.

LASER TREATMENTS INCLUDE:

Skin resurfacing	Reduction of redness & vessels
Photofacials	Skin tightening

OUR LASERS CAN TREAT THESE CONDITIONS:

Sun damage	Broken blood vessels
Acne scars	Leg veins
Wrinkles & texture	Age spots
Bags under eyes	Angiomas
Flushing of rosacea	Red birthmarks

LASERS AVAILABLE

Lumenis M22® Intense Pulsed Light (IPL) - non-ablative photofacials to treat redness and aging

Lumenis Ultra Pulse® Fractionated CO₂ - for Deep FX™ and Active FX™ ablative skin resurfacing, the ultimate laser therapy for wrinkle removal and skin tightening

Candela VBeam® Perfecta - vascular lesions and redness
